Parents remember to replace your child's winter clothes with spring wear (short sleeves and light wear pants or shorts) Finally, the weather is getting better and our children will be spending more time outside on the playground. So for the sake of eliminating some of the preventable illnesses that our babies so easily catch, leave your child a light weight jacket that can be wore outside on some of those upcoming windy days! Also, some of our activities are messy, so please check your child's cubby weekly and bring extra clothes, socks and underwear for those messy play times.

Week of the Young April 11-15, 2016

The Early Years of childhood are the Learnings Years! The first 5 years of your child's life is the most essential time for your child's learning. The day to day role that your child's teacher plays is very important and necessary. Without the dedication and commitment of early childcare teachers many children would not be equited with the learning tools that they need.to continue on into the primary years school. The week of the young was created to Honor early childhood teachers who are at the heart of quality early learning.
